AMERICAN RED CROSS WHEELS PROGRAM

"We need a Lift"

For nearly 40 years, the American Red Cross of Western Connecticut has provided transportation, ***at no cost***, to individuals who have no other means of getting to their medical appointments. To sustain this program, we need a little help from our friends.

Physicians, dentists, hospitals, physical therapists, podiatrists and others depend on the Red Cross ***Wheels Program*** to get their patients to their offices. ***Wheels*** provides a competent and friendly companion to safely transport a patient to and from the medical treatments and services needed.

Wheels is much more than just a ride: it is a means to living in an environment of choice with a family support system. It requires adequate funding, proper equipment, vehicle maintenance, well-trained employees and dedicated volunteers.

This past year ***Wheels*** has provided over 4,600 **free** rides through the effort of 45 volunteer drivers who have served 265 clients. Moreover, health and human services providers list the lack of transportation resources as a major hurdle to reaching clients in need.

Additionally, the costs for gasoline, vehicle maintenance and insurance have risen dramatically, thus putting this program in serious jeopardy. ***Your tax-deductible donation will help us continue to provide this very important service to those who need a real lift.***
